1 Who is the richest person in the world today? Until recently, it was Bill Gates of
2 Microsoft. But in 2017, Jeff Bezos passed him to become the richest person in modern
3 history. How did he () his money, and what does he use it for?

4 Bezos started his first business, called Dream Institute, while he was in high school.
5 After graduating from Princeton University in 1986, he got a high-paying job in New
6 York City. However, after hearing about business opportunities on the internet, he
7 decided to leave his job in 1994. The following year, his new company Amazon sold its
8 first book online. By 1998, the company was making over \$600 million a year.

9 At first Amazon only sold books, but it soon started selling other things. (■ 1) In
10 1998 Amazon began selling CDs and videos. (■ 2) Amazon started selling a digital
11 reader called the Kindle in 2007. (■ 3) In 2019, the company made over \$11 billion.
12 (■ 4) Today, Amazon is one of the most valuable companies in the world.

13 In the summer of 2020, Bezos was worth over \$188 billion. He has used his money
14 in many interesting ways. In 2000, he founded Blue Origin, a rocket company that aims
15 to make space travel cheaper and easier. He bought the Washington Post newspaper
16 company in 2013. He also uses his money to () education for young people.

17 Some people think it is not right for one person to have so much money. Employees
18 at the Washington Post make about \$78,000 per year. Compared to the billions of dollars
19 that Bezos made in 2018, this does not seem like very much money. For this reason,
20 some employees at the Washington Post and Amazon have asked for higher pay.

21 Jeff Bezos is the wealthiest man in the world today. His company has already
22 changed the way that we shop, and it will probably continue to change our lives in the
23 coming years.
